

Elenco fabbisogni buyer AeT_updated13aprile (Torino, 3-4 maggio)

ID	Company	Country	Website	Company Role	Activity description	Turnover	No. Of employees	Topics of interest	PRODUCTS/PROCESSES you need TO IMPROVE	PRODUCTS/PROCESSES/SERVICES you ARE LOOKING for	REQUIREMENTS	Additional requirements
1	Alionax	France	www.alionax.com	CEO	Study of innovative products in racket sorts	-	5	Automation, Robotics, Manufacturing controls, Artificial vision Lasers, optical, optomechanics and optoelectronics Sensors Artificial vision Machine tools and special tools, Special Materials Machining Robotics Vision systems Laser, optoelectronics Laser and optical components Sensors Laser and systems Micro-manufacturing systems Optoelectronic equipment and devices Artificial vision Subcontracting - Palastics processing industry Extrusion Injection/Microinjection Overmoulding	PEEK Extrusion, EVA Molulding	Extrusion, MicroInjection		
2	Anhui Chenyang Rubber & Plastic Co., Ltd	China	http://chenyang.qipei8.com	General Manager	Anhui Chenyang Rubber & Plastic Co., Ltd was established in May 20032 and was located at Hefei Gangji town next to 206 National Road. Company covers an area of 60000 square meters, construction area of 34000 square meters and has three subsidiaries : (Hefei Chenxing Auto Parts Co., Ltd、 Sichuan Chenyang Rubber Products Co., Ltd and Shanghai Buchen-Technology Co., Ltd) It has total assets of 250 million yuan. Main customers are JAC、 SAIC、 GAC、 Brilliance Auto、 Geely Auto、 Beiqi Foton etc.	50	800	Robots for assembling, manufacturing and process control Moulding FMEA (Failure Mode and Effect Analysis) Process control systems Quality control systems Subcontracting - Mechanics & Material transformation Assembly Extrusion Machining	We are in urgent need to improve the automation of the factory, and we want some information about the application of new materials	1.Industrial automated equipment.(reduce human investment) 2. Help to achieve lightweight materials(carrier,new type of tpv,etc)		
3	Anhui T-dragon Industrial Robotics Co.,Ltd	China		General Manager	Industrial products trading by working with end users and engineering integrator, design and mfg material handling equipment to meet customer demands on productivity and save labors, industrial robotics integration and service, air and gas compressors sell and service, End of line system on testing solution of car plant etc.	6	30	Automation, Robotics, Manufacturing controls, Artificial vision Simulation, Additive manufacturing Testing, Measurements, Quality controls, Maintenance	Products and technology on industrial robotics integration, renew capability and sourcing on used industrial robots, etc	Testing device and system on car new technology such like wheel alignment, 3D testing and LDW, testing device and system on car electronics	Certifications and project case studies, we will validate how to develop the local market accordingly	Focus on who has new technology with no business in China and willing to find partner to develop China market
4	Gangzhou Karts Mechanical Manufacture Co.,Ltd	China	www.kartsme.com	General Manager	Assembly lines/machining lines for engine and gear box	21,6	153	Mechatronic components Lasers, optical, optomechanics and optoelectronics Test benches	We would like to have more flexible and automation engine, as well as the assembly lines and machining lines for gear box	1.Thermo and cooling testing benching for engine/gear box 2.Electromagnetic screw axle, Electromagnetic pressure cylinder 3.Vision system for robots		
5	Guangzhou Yafine Electronic Technology Co.,Ltd	China	WWW.YAFINE.CN	System Integrator	We are focusing on electromechanical integration business,therefore our involved field are paper manufacturing, tobacco, mechanical equipment manufacturing ,and food&beverage etc. So, we can offer kinds of solutions for automation components, system integration, and production line engineering.	3	80	Machine tools and special tools, Special Materials Machining Automation, Robotics, Manufacturing controls, Artificial vision	We are looking for the mechanical involved into electromechanical integration system, electronic components, related technical solutions. For example: sensors, timing belt, axle, flexible cables and mechanical design	sensors, timing belt, axle, flexible cables		
6	MEDICARS - ZOUARI GROUP	Tunisia			ASSEMBLAGGIO MEZZI COMMERCIALI DA 7 TON PER CASA AUTOMOBILISTICA CINESE E PICK UP PER CARMAKER INDIANO	30	75	Machine tools for special materials machining Special tools	CASSONI PER CAMION E PICK UP	FRANCIATRICI (O TRONCATRICI) A DISCO LUBRIFICATE PER METALLI FERROSI, TUBI E PROFILI, CALANDRE O CURVAPROFILATI ASIMMETRICHE A 3 DISCHI, CALANDRE PER LAMIERA A 3 CILINDRI (PER LAMIERA SPESSORE 2-3 mm, LARGHEZZA 2 metri)	n/d	
7	WALLY CAR	Tunisia	www.wallyscar.com		Automobile production	8	28	Robots for assembling, manufacturing and process control Traceability Moulding Overmoulding	Seats, exterior + interior mirrors, exterior lights, hooks system, window system, wiper system.	NOTE: l'azienda ha in programma un'ampliamento degli spazi produttivi e prevede l'acquisto di nuove linee e l'aumento dei dipendenti.		
8	Wuhan Jiahexing Technology Co.,Ltd	China	www.whjhxkj.com	President	Industrial controlling products trading with OEMs, end users, system integration service for customer engineering etc.	1,5	50	Machine tools and special tools, Special Materials Machining Automation, Robotics, Manufacturing controls, Artificial vision Testing, Measurements, Quality controls, Maintenance	electronics device and robotics technology, 3D printing etc.	Products and technology on industrial controlling, and sourcing on MRO market, etc	Yes, kinds of certifications, and new technology that can be available for Chinese market, and also can be used on projects.	We would like to find partners willing to develop business together for both Chinese and European markets.
9	Yunnan TARGET Technology Co.,Ltd	China	www.77get.com	Marketing Manager	Industrial automation, Industrial products trading by working with end users and , Also the power, machinery, tobacco, railway and other qualified supplier, providing excellent products and solutions for customers.provide the best products and service etc.	6	77	Automation, Robotics, Manufacturing controls, Artificial vision Simulation, Additive manufacturing Testing, Measurements, Quality controls, Maintenance	Products and technology on industrial automation integration and logistics automation, we are looking for kind of products that can be used for the automation logistic for tobacco material. Also need to renew capability and sourcing on used industrial automation, etc	Testing device and system on Electricity, Tobacco, and Machinery.	Suppliers with international view to do business, and can give the real technical support when it is necessary, and also we would like to find the companies who are willing to come to China and cooperate with us to develop Chinese market.
